Cavan County Council Corporate Plan 2024-2029

The Corporate Plan serves as Cavan County Council's strategic framework for action during the lifetime of this Council, 2024-2029.

It sets out our vision for County Cavan and what Cavan County Council will do, together with all stakeholders, to deliver that vision. It outlines the strategic goals and objectives that will drive the work of the Council over the next five years. The Plan also provides a list of supporting strategies which will ensure delivery of each of these objectives. The plan recognises and considers a range of existing Local, National and European policies, strategies and plans in relation to programmes and activities that are central to our objectives and goals for the next five years.

Preparation of the Corporate Plan

Legislative basis

The Corporate Plan is prepared in accordance with the relevant legislation including the Local Government Act 2001 and the Local Government Reform Act 2014. The Plan has also been developed in accordance with the Guidelines for Local Authorities in the preparation of Corporate Plans for 2024-2029 issued by the Department of Housing, Planning and Local Government. The Plan recognises the hierarchy of plans and legislation from EU, national, regional, county and local levels, that govern the strategic planning for the Council.

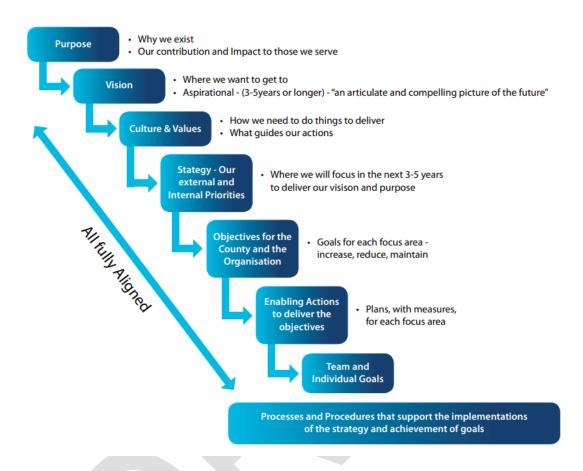

Public consultation

The Cavan County Council Corporate Plan was developed through an open process of engagement with stakeholders. The consultation comprised of a public survey that was shared and promoted across all our social media channels, website and Public Participation Network. This survey provided a range of responses from the general public, business people, Comhairle na nÓg members and members of the general public. We held consultation workshops with our Elected Members and our Local Community Development Committee. We also held consultation workshops with a large number of our staff, including outdoor and office-based staff, as well as the senior management team and section managers.

This engagement approach enabled us to develop a Corporate Plan that reflects the knowledge, insights and lived experience of our citizens and staff. Building our Corporate Plan around this information ensures the plan has relevance for everyone. The outputs of the

consultations informed the creation of a strategic framework for the Corporate Plan, ensuring that our purpose is aligned with our vision and it's achievement.

Strategic Planning and Alignment

Local Government and Cavan County Council

Our Operating Structure

The Local Government Act 2001 (extensively amended and updated by the Local Government Reform Act 2014) is the core legislative code supporting the structures, powers, functions and duties of local government in Ireland. In addition to the 2001 Act, the operation of local authorities is affected by a range of other legislation which deals with specific services (e.g. housing, roads, planning, waste, etc).

Cavan County Council is the primary unit of Local Government in the county and is responsible for the provision of an extensive range of services in relation to Planning, Community and Economic Development, Transportation, Environment, Water Services, Housing, Cultural

Services, Libraries and Emergency Services. All of these services impact on our citizens daily lives.

Responsibilities in councils are divided into two areas:

- Reserved functions (for the Elected Council)
- Executive functions (for the Chief Executive)

Elected Council

The representative structure of the Council consists of 18 democratically elected members. Each councillor serves a five-year term which commenced following the Local Elections in June 2024. The role of the elected council is to determine strategic policy and to represent the general view of the citizens who elected them.

As the policy makers, Councillors exercise their authority through Reserved Functions. These functions include adoption of the County Development Plan, Corporate Plan, Annual Budget, including the setting of the commercial rate, and varying the Local Property Tax. Policy decisions are made by majority resolutions passed by the elected councillors during council meetings.

These decisions may be made at 2 levels:

- Full Council (plenary level)
- Municipal District Level

Municipal Districts

Local councillors are elected at local elections to both their respective County Council and their municipal district. At municipal district level, members act as a decision-making sub-formation of the overall council in respect of their municipal district area. The Local Government Reform Act 2014 significantly enhanced the role of elected members at municipal district level.

County Cavan is divided into 3 Municipal Districts:

- Cavan Belturbet
- Ballyjamesduff
- Cootehill Bailieborough

Corporate Policy Group (CPG)

The Corporate Policy Group provides a forum for co-ordination and discussion of policy issues and acts as a link between the Special Policy Committees (SPC's), municipal districts and the full Council. It acts as a forum where policy decisions affecting the entire Council can be agreed for recommendation to the full Council. The CPG consists of the Cathaoirleach, the Chairs of the SPC's, and a representative from each Municipal District if not already represented. The CPG is supported by the Chief Executive and the Senior Management Team.

Strategic Policy Committees (SPC's)

The SPC's assist the Council in the formulation, development and review of policy. One third of the membership of each SPC is drawn from sectors relevant to the work of the particular SPC, nominated by the Public Participation Network (PPN) and the sectoral partners. The role of the SPC is to provide the Councillors with external sectoral views and, in doing so, enhance the policy formulation process.

Cavan County Council has 5 SPC's:

- 1. Economic Development, Enterprise and Planning
- 2. Climate and Biodiversity Action & Environment
- 3. Transportation, Infrastructure and Emergency Services
- 4. Housing, Social Inclusion & Corporate Services
- 5. Cultural Development, Irish Language and Sport

The Executive

The day-to-day management of a local authority is carried out by the executive which includes the Chief Executive, the Senior Management Team (Directors of Service and Head of Finance) and the entire staff of Cavan County Council. The Executive make the daily operational decisions having regard to the policies adopted by Councillors. The executive's responsibilities include delivering on strategic objectives as set out in the corporate plan, through planning and organising the work of the council and ensuring the delivery of services. Policy areas under the responsibility of the Chief Executive include transport, social housing, economic development, and local authority governance. The Chief Executive along with the Directors of Services, management and staff advise and assist the elected council in the carrying out of their representational work and reserved functions.

Committees and Networks

The work of the full council is supported by a number of committees which comprise the elected members as well as external expertise. These committees have a monitoring and oversight role as well as providing input and advice to policy and programme development across the local authority.

Local Community Development Committee (LCDC)

The LCDC brings a more strategic, focused and joined-up approach to local and community supports, and provides greater coherence to local and community development activity in the county. The LCDC, like the CPG and SPC's, is a committee of the local authority, however unlike the CPG and SPC's, it is independent from the local authority in the performance of its functions. The LCDC comprises both public and private sector socio-economic partners and to maintain its community orientation, there must be at least one more private person when decisions of the LCDC are made. It co-ordinates, manages and oversees local development programmes (such as LEADER and SICAP) within the county and ensures they are delivered effectively. The LCDC is responsible for the preparation and implementation of the Local Economic and Community Plan (LECP). The implementation of the LECP underpins much of what we the Council does. This plan which sets the agenda for the economic and community development of the county has the democratic mandate of Cavan County Council.

Public Participation Network (PPN)

To ensure citizen engagement and promote participation, from local communities, every local authority is required per Section 46 of Local Government Act of 2014 to establish a Public Participation Network (PPN).

The PPN serves as a platform for community, voluntary, social inclusion, and environmental groups to actively participate in policy making at local level. The success of the PPN greatly relies on the effectiveness of these arrangements and the local authority plays a central role in facilitating the network. The main objective of the PPN is to empower the public to have a role in policy making processes and oversee activities within the jurisdiction of the local authority. The PPN acts as a link, between the local authority and community, environmental and social inclusion sectors while respecting other consultation procedures. The PPN goals encompass aspects, such as, envisioning the wellbeing of the county/city for future generations. They also involve encouraging involvement in decision making and service planning as well as ensuring

that participants from environmental, social inclusion and voluntary sectors have a say in decision making bodies.

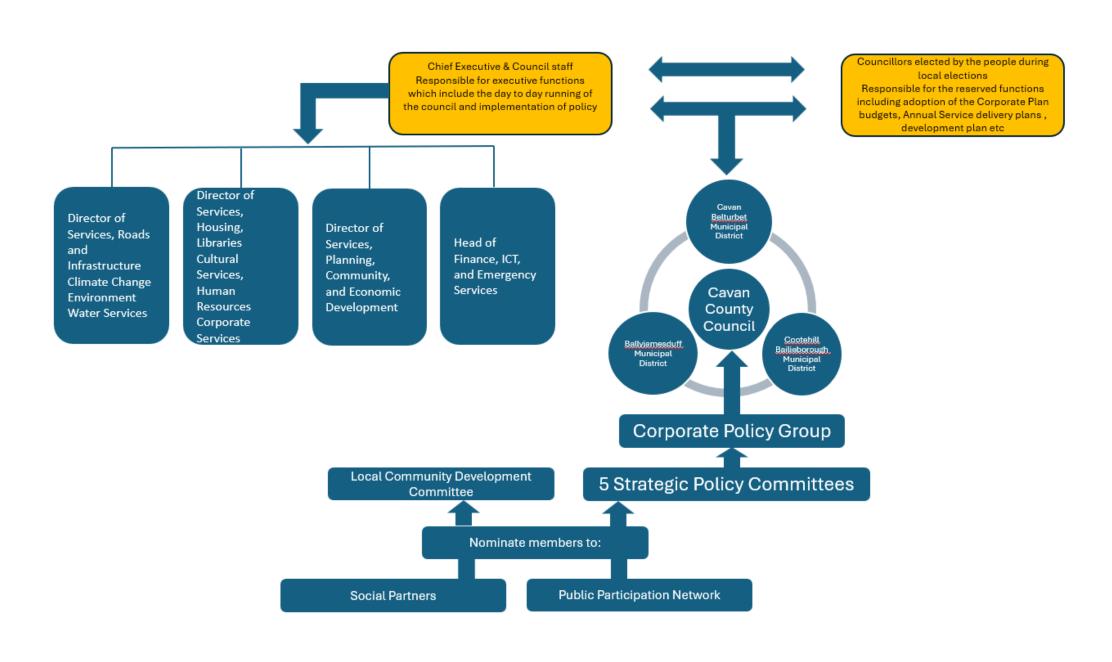

Local Community Safety Partnership (LCSP)

The Local Community Safety Partnership (LCSP) is a new government initiative which replaced the Joint Policing Committee. This partnership brings together community members, the voluntary and community sector, statutory services, and local councillors to work together in identifying and tackling community safety issues locally.

The Local Community Safety Partnership will give the community a stronger voice in identifying and tackling the issues that individuals, families, young people, business owners and all members of the community face. Representatives of the community will make up 51% of the members of the Local Community Safety Partnership, meaning community voices will be the majority. The Local Community Safety Partnership will work with the community to identify local priorities and use these to develop a Local Community Safety Plan that will be delivered in a collaborative fashion by all stakeholders.

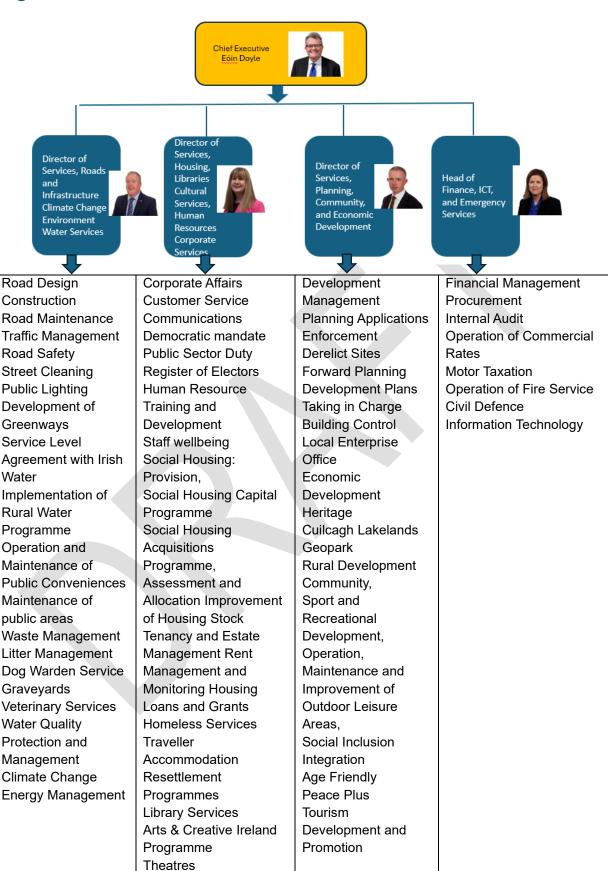

Audit Committee

The Council has an Audit Committee which is part of the Local Authority governance framework. It is tasked with assessing our internal control systems and procedures and providing assurance to the Council regarding the suitability of those systems. It supports the Council by providing an assessment of the financial reporting and management, internal audit processes and risk management policies and practices in the Council. The Audit committee is chaired by an independent Chairperson, who reports to the full Council on an annual basis.

Operating Environment

1. External operating environment

In considering the Council's current external environment, the following factors exist and may present challenges and opportunities over the lifetime of this Corporate Plan:

Political

Cavan County Council is responsible for implementing government policy in a wide range of areas, such as housing, planning, climate action and waste management, active travel etc. Many of the targets and service delivery requirements are set nationally and are subject to policy changes, as introduced centrally. Over the lifetime of this Corporate Plan we need to be particularly mindful of political challenges including potential changes brought about by a change of government and in particular funding decisions made by central government.

Economic

Economic factors that Cavan County Council must consider in its operating environment include the performance of the local and national economy, which affects income sources, the increasing demand for services, rising project delivery costs, and challenges in attracting and retaining skilled staff. Economic uncertainty, including external factors such as the war in Ukraine, could impact financial stability and budgetary decisions. Additionally, the retail sector plays a significant role in the local economy, requiring ongoing strategies to support its growth, safeguard jobs, and expand employment opportunities.

Social

We continue to deal with an increasingly diverse population across the county and the demands on our services are constantly changing. As a local authority we need to be proactive in facilitating the needs of this changing demographic, particularly our aging population and our new communities. We are also conscious of improving economic circumstances, housing needs, planning challenges, consumer demands and public expectations. These will all have substantial implications for resource allocation, the services we provide and how we provide them.

Technological

Embracing technological advances presents many opportunities to maximise the use of IT in the efficient delivery of our services. The rapid advancements in technology also contribute to rising customer expectations. Our focus is on increasing the use of technology in the delivery of services, in keeping with the objectives of the delivering 'Better Public Services'. Becoming more innovative with how we engage with our service users will help improve efficiency and improve customers experience. We strive to identify and apply initiatives that can streamline our service provision, customer services and decision-making processes while complying with best practice in cyber security, privacy and GDPR. The local government digital and ICT strategy, 'Digital Local Government: Working for Everyone' outlines a vision and approach to digital services, digital communities, digital workforce and digital systems. The strategy sets out a roadmap for taking full advantage of the enormous potential that digital technology offers, including automation and AI, while ensuring our employees have the digital skills and tools to improve the efficiency and effectiveness of our service delivery.

Environment and climate

A growing emphasis on environmental protection and enforcement, sustainability and environmental stewardship are central to our service delivery. The increasing frequency of extreme weather events further influences our planning, resource allocation, and preparedness to meet these challenges effectively. The successful implementation of our Climate Action Plan will support these priorities and ensure the promotion of good practices in Cavan County Council's activities. We will build climate change resilience, action and sustainability into service delivery and infrastructure, while protecting and promoting our natural and built environment for the well-being of present and future generations.

Legal

Our day-to-day operations are strongly influenced by requirements at national and EU level. The Council operates in a complex legislative, political and local context, as both service providers and regulating bodies, with significant legal and government policy obligations. Increased compliance requirements in terms of Data Protection/GDPR, Health and Safety and Procurement all influence our service delivery. Furthermore,

adherence to directives, particularly in areas such as environmental protection and data privacy, imposes additional legal obligations that shape policy development and service implementation at a local level. These legal factors necessitate that local authorities maintain robust governance structures and continuously adapt to legislative changes to effectively serve their communities. The implementation of the Public Sector Equality and Human Rights Duty mandates the council to actively promote equality and protect human rights in our policies and operations.

2. Internal operating environment

The following factors will influence the organisation's capacity and resources:

Our People - ensuring a fit for purpose organisation

The objectives of our Corporate Plan can only be achieved through the commitment, support and constructive working relationship of our Elected Members and staff. We will ensure that our elected members and their committees, are supported and resourced to carry out their roles and responsibilities in an efficient and effective manner in delivering a quality cost effective service to our citizens.

Cavan County Council has some 600 staff including part time firefighters. The staff work together on a collaborative basis both within the organisation and across a range of Government Departments and State Agencies, together with the community, voluntary and business sector to provide a broad range of services to the citizens of the county. As our most valued asset it is essential that we lead, motivate and manage the Council's Human Resource so as to maximise efficiency in the delivery of service.

Key factors in having the necessary capacity and resources will be the implementation of an effective Workforce Plan and the ongoing monitoring of performance against goals and objectives. We remain committed to the training, development, well-being and health and safety of our staff and will fully implement the PMDS process to ensure improved performance, greater job satisfaction and more focused training to improve capacity.

The development and implementation of a robust workforce plan and effective organisation structure will be implemented, enabled by technological advances. This will ensure that the Council can:

- 1) continue to adapt to the diverse range of challenges that the sector faces,
- 2) enhance the provision of services to the public and stakeholders, and
- 3) become an employer of choice in a competitive recruitment environment.

Financial resources

The delivery of this plan is heavily reliant on a stable finance structure. We will continue to optimise available income sources and strive to maintain a strong financial position over the lifetime of this plan. Notwithstanding the ability of the Council to raise local funding through the Local Property Tax, Rates, and Development Contributions, the dependence of the local government system on funding from central government leaves it exposed to variations in the economic climate and central funding allocations. Through successful bids for grant applications, we have secured financial opportunities which will benefit our County greatly. The Council must provide match funding to leverage the maximum amount of funding from national schemes which will ensure that the long-term investment in the county will deliver on those objectives. This requires prudent financial management and long-term planning. The Executive and Corporate Policy Group will work together to maximise the resources available both from locally determined income, central government funding and other funding sources. Where sufficient financial resources are not available, objectives will be prioritised with the intention of achieving all key objectives within the life of the Plan.

Digitisation

We recognise the essential role technology plays in the modern world and rising customer expectations in this regard. Cavan County Council will continue to modernise its ICT services, aiming to deliver an inclusive, people and community-focused digital program providing secure and accessible online services. This initiative is supported by a commitment to upskilling Cavan County Council staff and equipping them with the necessary digital systems to deliver better services. Our service delivery is underpinned by a strong commitment to ensuring the safety and privacy of our service users. Cavan County Council objectives are aligned to the

overarching strategy for the sector, 'Digital Local Government: Working for Everyone Ireland's Local Government Digital and ICT Strategy 2030' Cavan County Council's dedication to sustainability is also reflected in our digital initiatives. Using technology, we aim to reduce our carbon footprint through the adoption of digital solutions that minimise paper usage and travel requirements. Cavan County Council is not only keeping pace with technological advancements but is also leading the way in creating a more connected, efficient, and inclusive digital service for all in County Cavan.

Organisational Development

In a continuous changing environment influenced by both external and internal factors, the demand for response to change is great. We are committed to examining our internal systems, structures and work practises to ensure that we are best placed to respond to service demands. Developing and implementing an organisational development program will help us to improve overall efficiency, service delivery, and employee satisfaction. It will also help ensure our organisation is aligned with our strategic goals and fosters a culture of continuous improvement. Additionally, an organisational development programme will support leadership growth and enhance communication across departments enabling the local authority to deliver high-quality, responsive services to the public.

Corporate Governance and accountability

Governance and accountability are key to how we deliver our services with transparency around our decision making, procurement and value for money. We do this by adopting the comprehensive governance principles for the sector. We are guided by these good practice guidelines when we are developing policy and awareness-raising resources. Good practice guidelines are evidenced in, for example:

- our Codes of Conduct for elected members and staff,
- the anti-fraud and corruption policy and protected disclosures policy,
- the operation of the Transparency Code under the Lobbying Act 2015,
- the compliance with the statutory Ethics Framework,
- implementation of processes and procedures for Declaration of Interests and
- the publication of the expenses and allowances of the elected members.

Managing Risk

A crucial aspect that supports governance is the implementation of the Council's Risk management Framework. This framework aids in determining priorities, setting objectives, addressing uncertainties in decision making, clarifying responsibilities, and demonstrating alignment with the public interest and public good. It also serves as a source of assurance by ensuring improvement in operational resilience, early detection systems for potential issues or challenges incorporating lessons learned from past experiences and surpassing ambitious performance targets.

Collaboration and Shared Services

We will focus on making the best use of resources and achieving value for money by working in collaboration with other local authorities and external bodies. In conjunction with the wider public service we will support the sharing of expertise and knowledge, promoting an innovative and forward-thinking culture in service delivery. We will continue to support and implement a range of shared service arrangements and service level agreements. Nationally, shared services we are engaged in include,

- MyPay,
- Housing Assistance Payment,
- Creative Ireland Programme,
- Age Friendly and Healthy Age Friendly Homes,
- Building Control Management Service (BCMS),
- Roads Management Office,
- Waste Enforcement Regional Lead Authorities (WERLA),
- National Waste Collection Permit Office (NWCPO), and
- Climate Action Regional Office (CARO).

Corporate facilities

We are committed to redeveloping our Corporate Headquarters, to make Cavan County Council more accessible to our citizens and to provide a strong corporate identity, which signifies our loyalty and pride, while contributing to the enhancement of our location in Cavan Town. This project will also support a better working conditions, increasing cross-departmental collaboration and creating an environment which will support a positive organisational culture.

Creating One View

The Corporate Plan provides an opportunity to bring alignment with other strategic plans so that there can be a single overall vision for the county and the organisation. It also provides a shared understanding of the key strategic goals we are pursuing over the next five years. This will allow our organisation to communicate more clearly with internal staff and external stakeholders about where we want to go and how we plan to get there.

Our Vision

Cavan is recognised as an ambitious, entrepreneurial and inclusive county.

Our Mission

Our mission is to collaborate with our stakeholders in providing the necessary services and supports for our people, thereby fostering sustainable growth and enhancing the quality of life in our communities. We aim to make Cavan a vibrant and welcoming place to live, work and visit.

Our Core Values

Our core values are the fundamental beliefs, traits, and behaviours that will guide Cavan County Council in its daily work, in the pursuit of our strategic vision and mission. These values are essential in shaping the culture and effectiveness of our organisation and in ensuring we serve our citizens and communities with integrity and excellence.

- Collaboration and Teamwork: Cavan County Council will work together, in collaboration with service users, communities and stakeholders, through meaningful engagement to achieve better service delivery and better outcomes for all.
- 2. **Human-centric and Customer Focused**: Cavan County Council will place the needs of our citizens, customers and staff at the heart all decisions and services, to enhance customer experience, improve the delivery of services and improve quality of life in County Cavan.
- Accountable and Transparent: Cavan County Council will work with the Elected Members and staff to ensure that the organisation operates with good governance and will be open and transparent in all aspects of our work and the delivery of services to the public.
- 4. Equality and Inclusion: Cavan County Council is committed to fostering an environment where everyone has equal access to opportunities, accessible services, and decision-making, ensuring that diversity is embraced and inclusion is at the heart of everything we do.
- 5. **Innovative and Creative**: Cavan County Council will strive to find new and creative solutions to challenges, embracing innovation to improve services, drive positive change, and enhance the lives of all residents.
- 6. **Leadership and ambition**: Cavan County Council will lead with integrity and vision, inspiring positive change and fostering an environment where ambitious goals are set and achieved for the benefit of the county.

Cross-cutting Themes

During the consultation process in the development of this corporate plan, several themes emerged that are cross-cutting in nature. That is, they involve all departments of the Council and are not just the responsibility of one department or section. These core elements will be embedded into how we deliver services and become an natural considerations in our daily operations. The 10 themes we identified are as follows:

1. Sustainable Development

The 2030 Agenda for Sustainable Development, along with the 17 Sustainable Development Goals (SDGs) and their 169 targets, is a plan of action for people, planet and prosperity, with a central commitment to 'leave no-one behind'. While the SDGs are global, their achievement depends on the ability to make them a reality locally. Agenda 2030 emphasises the need for an inclusive and localised approach to achieve the SDGs. Ireland's National Implementation Plan for the SDGs identifies the crucial role that Local Authorities play in translating the SDGs into practical action at local level that can help to deliver the SDG objectives. Cavan County Council recognises the strategic importance of the 2030 Agenda for Sustainable Development and the integrated multiagency approach required to achieve this. In recognition of our commitment to sustainable development we have linked each of our strategic objectives to the Sustainable Development Goals. We will continue to integrate the SDGs into our work and in our supporting plans, policies and strategies, to support sustainable development.

2. Corporate Governance & accountability

Good governance in the public sector is about delivering priorities, achieving objectives, behaving with integrity, and acting in the public interest and in ways that are consistent with legal, regulatory and government policy obligations. Cavan County Council will adhere to the 'Local Government Code of Governance' in all operations. The seven governance principles within this Code, underpin the governance structures, governance arrangements and governance culture of local authorities. They encapsulate a shared understanding of integrity, transparency, and

accountability, providing a touchstone against which actions, behaviours, decisions, conduct, strategies, plans and work programmes can be evaluated.

We will:

- focus on the purpose of the authority, on outcomes that deliver sustainable economic, community and wider societal benefits and on implementing a vision form the local authority.
- 2. promote and demonstrate public service values through upholding high standards of conduct and behaviour
- 3. members and officials will work together to achieve a common purpose within a framework of clearly defined functions and roles
- develop the organisational capacity and the leadership capability and competencies of members and officials to operate effectively and fulfil the purpose of the organisation
- 5. make well informed and transparent decisions and managing risks and performance
- 6. engage openly and comprehensively with local people, citizens and other stakeholders to ensure robust public accountability
- actively contribute to the furtherance and achievement of the Sustainable Development Goals by delivering on the priorities and actions within the Climate Action Plan and the provisions of the Climate Act

The Code recognises the independence of, and statutory-based governance structures already in place in local authorities and will include the following main requirements: - An annual review of the effectiveness of internal controls, - The completion of a Governance Compliance Checklist, and - The publication of an annual Statement of Internal Control.

3. Climate Action

Climate action is a cross-cutting theme of all of the Council's activities. Through the implementation of Cavan County Council's Climate Action Plan 2024 -2029 we will demonstrate organisation-wide commitment to expediting County Cavan's transition to a low-carbon future by employing inventive approaches to local-level research, planning, community engagement, and project implementation in the realm of energy and climate change. Our aim is to mitigate the consequences of climate change and

enhance the quality of life for residents of County Cavan. Our Climate Action Plan 2024-2029, sets out how working in collaboration with communities and businesses, the local authority can help tackle climate change and promote a range of mitigation, adaptation and other climate action measures, to help deliver on the national climate obligations and the Government's overall National Climate Objective, which seeks to pursue and achieve, by no later than the end of 2050, the transition to a climate resilient, biodiversity rich, environmentally sustainable and climate neutral economy.

4. Quality Service Delivery & Digital transformation

Cavan County Council is committed to delivering locally, the 'Digital Local Government: Working for Everyone', the new digital and ICT strategy for local government in Ireland. It is our ambition to build on what we have achieved and to use technology to support the work of the Council. Our goal is to deliver modern local government services through digital technology. We aim to increase online services for the public and businesses, support sustainable digital communities, use data to improve decision-making, provide consistent digital services designed with the public, enhance work processes with digital tools, collaborate to share ideas and solutions, ensure inclusivity for those not interacting digitally, and foster a culture of digital innovation that empowers staff to improve service delivery. Our focus will be on continually improving the quality of customer service, making services more accessible by using the advances in technology, listening more to service users' feedback, and ensuring value for money.

5. Age Friendly

Cavan County Council is committed to delivering the Cavan Age Friendly Programme, leading a multi-agency approach to age-related planning and service provision. We are committed to continuing our work, in collaboration with the Cavan Age Friendly Alliance, Cavan Older People's Council and Age Friendly Ireland, in making Cavan more inclusive of older people by addressing their expressed views. The council's commitment to being age-friendly and implementing age-friendly approaches across all functions is a key driver in realising its vision to make the county a great place to live and grow old. This commitment ensures that the needs of people at all stages of life, particularly older adults, are fully integrated into the council's services, policies, and planning. By considering the diverse needs of an

aging population, the council will create accessible, inclusive, and supportive environments that promote well-being and independence for older residents. This value shapes the responsibility of the organisation to deliver services that are tailored to the unique challenges and opportunities of aging, fostering a culture where the dignity, health, and safety of older individuals are prioritised.

6. Public Sector Equality and Human Rights Duty

As a public body, Cavan County Council is committed to meeting our obligations under the Irish Human Rights and Equality Commission Act 2014, under which we are required to have regard to the need to eliminate discrimination, promote equality of opportunity and protect human rights. Cavan County Council will establish an Equality Action Team who will coordinate the implementation of the Public Sector Duty. This team will comprise of staff members from a cross section of the Council's functional areas. Following this, Cavan County Council will assess the relevant human rights and equality issues to be considered in carrying out the Council's functions and services. We will prepare an action plans to address the actions are required; and report on developments and achievements annually.

7. Health, Safety & Welfare

Cavan County Council is committed to maintaining the safety, health and welfare of all employees through the provision and maintenance of a safe place of work including safe means of access to and egress from work, safe plant, equipment, machinery and safe systems of work. The organisation strives to create a suitable environment to promote the well-being of employees, contractors and visitors. We will continue to implement proactive health and safety measures, including regular safety inspections, safety inductions, staff training and activity based risk assessments. We are committed to:

- Minimising workplace accidents, incidents and near misses
- Eliminating risk where practicable and to reduce residual risks to as low as reasonably practicable
- Maintaining compliance with all relevant health and safety legislation and guidance

 Increase awareness of all interested parties regarding our health and safety requirements and performance

We will create a safe and healthy work environment which fosters a culture of positive wellbeing, ensuring that we as an organisation:

- Improve the general wellbeing of our diverse workforce and ensure that wellbeing is seen as everyone's responsibility
- Embed wellbeing as a central part of our strategic priorities for management across all functions and ensure awareness of statutory obligations
- Be identified as an employer of choice

8. Citizen engagement

Work in partnership to build consensus and achieving better outcomes through strong productive engagement with internal and external stakeholders. Engaging with the people who live in this county and those who use Council services will remain a major consideration in the design and delivery of our services. This helps us to ensure that our services meet the needs of the county and its citizens. We will continue to develop new ways to engage with our citizens in order to build civic capacity and support community leadership. Enhance the conditions for increased engagement within our communities, increased use of public buildings and public spaces, while developing community innovation platforms to inspire ideas to develop well-functioning communities, with increased levels of social and civic engagement.

9. Irish Language

Cavan County Council is committed to developing and promoting the use of the Irish language as required under the Official Languages Act, 2003 throughout Cavan County Council and ensuring compliance with the requirements of the Official Languages Act, 2003. This will be achieved through collaboration with voluntary organisations and public bodies in relation to the Irish language including; An Coimisinéir Teanga and the Department of Arts, Heritage & the Gaeltacht. This value guides the work of the council by encouraging the use of Irish in official communications, public signage, and community outreach, while also promoting educational and cultural initiatives. It shapes the responsibility of the organisation to deliver services in a way that reflects and respects the county's linguistic heritage,

creating an environment where the Irish language is valued, celebrated, and actively promoted across all areas of public life.

10. Promotion of the County and the Council

The council's commitment to promoting the County and its own work is a vital part of creating a thriving, dynamic region that attracts residents, businesses, and visitors alike. By actively showcasing the County as a great place to live, work, invest, and do business, the council will highlight its strengths. The council will also position the County as an attractive tourist destination by promoting its rich cultural heritage, natural beauty, and unique offerings. At the same time, the council will work to build confidence in its own operations by effectively communicating the positive impact of its services, from community development to the delivery of essential public services. This commitment will foster a culture of pride, transparency, and accountability, ensuring that both internal and external audiences recognise the council's significant role in shaping the County's growth and success.

Strategic Objectives 2024-2029

Cavan County Council will work continuously to deliver a high-quality service to our citizens. In order to achieve the vision as set out in our Corporate Plan 2024-2029 we will focus on six key strategic objectives as set out below. To deliver on these, we will implement a range of supporting strategies that will be delivered by the functional areas of the Council. Strategic Projects

In demonstration of Cavan County Council's commitment to driving the development and progress of County Cavan, we are proud to present a selection of strategic projects current being progressed. These initiatives reflect our dedication to addressing the evolving needs of our community while laying the foundation for sustainable growth and prosperity. These projects will be by an array of additional strategic projects in the lifetime of this Corporate Plan.

Each project aligns with the County Council's strategic priorities, including enhancing infrastructure, supporting economic development, promoting tourism, protecting the environment, and improving the quality of life for all who live and work here.

This list demonstrates not only our ambition but also our intent to deliver tangible results that will shape the future of County Cavan. We will continue to explore further opportunities over the lifetime of this plan. By focusing on these transformative projects, we aim to create opportunities and support the economic and social development of the County.

Implementing the Corporate Plan

This Corporate Plan sets out the framework within which the delivery of services is planned each year over the 5-year lifetime of the plan. The figure below sets outs of the Hierarchy of Plans and Objectives in the business planning structure:

Annual Service Delivery Plans

The annual service delivery plan will identify the principal services to be provided and the standards to which they are to be delivered, monitored and evaluated so as to ensure that objectives for the optimum delivery of services is achieved. It provides a methodology whereby the Council can gauge and be gauged on their own year-on-year performance. The corporate plan includes the supporting strategies to be delivered by each functional area. These will form the basis for development of the annual service delivery plan. This will ensure that annual delivery plans will be aligned with the objectives of the corporate plan. The service delivery plan will be linked to the budgetary process, the performance management and development system, and relevant service/performance indicators, aligning over the lifetime of the corporate plan with NOAC's performance indicators.

Monitoring & Reporting on Progress

This plan sets out our priorities, the demands and challenges that face us, and what we hope we can achieve over the next five years. Circumstances will change, and so we must adapt to such changes during the lifetime of this plan. We will identify these changing circumstances by ongoing monitoring and reviewing. To do this, we research and prepare a range of reports on our activities and services, and we keep

up to date with national policy by reviewing and implementing Government plans and directives. The oversight, monitoring and reporting mechanisms that we produce and are guided by are:

- Annual Budget
- Annual Service Delivery Plan
- > Team plans
- Personal development plans under the Performance
 Management and Development
 System
- Chief Executive's Monthly Report
- Rolling three-year CapitalProgramme
- Annual Quality AssuranceReport under the PublicSpending Code

- Annual review by the Corporate Policy Group and preparation of the Annual Corporate Plan Achievement's Report
- National Performance Indicators
- Annual Report
- > Annual Financial Statement
- Audit Committee Annual Report
- Local Government AnnualReport
- National Oversight and Audit Commission reports

The Chief Executive's report is presented to elected members at a council meeting every month. This report details important achievements on the delivery of the Corporate Plan as well as highlights of key service delivery statistics and progress made on the targets set out within the service delivery plan for that year. Throughout the lifetime of this plan, the Corporate Policy Group and senior management team will carry out an annual review of the plan and report to the Council each year. This will then be included in the Annual Report for that year.

Performance Indicators and baseline data (Appendix 4) sets out relevant high-level data (information) about key functions and services Cavan County Council are performing. This data aims to establish a baseline of high level, output / outcome-focused data across Corporate Plan objectives. This baseline data will help us to measure our performance and achievements and guide our future plans.

Appendix 1 – Public Sector Equality and Human Rights Duty – Our Commitment

The Public Sector Equality and Human Rights Duty ('the Duty') places a statutory obligation on public bodies to eliminate discrimination, promote equality of opportunity and protect the human rights of those to whom they provide services and staff when carrying out their daily work. It puts equality and human rights in the mainstream of how public bodies, including Cavan County Council, executes its functions.

Section 42 of the Irish Human Rights and Equality Commission Act 2014 places the Duty in the context of strategic planning. Cavan County Council as a consequence is required to set out an assessment of the equality and human rights issues relevant to its purpose and functions in a strategic plan, such as a Corporate Plan, in a manner that is accessible to the public.

Section 42(1) requires public bodies to have regard to the need to:

- Eliminate discrimination.
- Promote equality of opportunity, and
- Protect the human rights of staff and service users.

Implementing the Duty has the potential to stimulate proactive approaches to equality and human rights at strategic planning level and in annual work plans, team development plans etc.

The act requires Cavan County Council to, having regard to its functions, purpose, size and resources available to it, to:

- Assess set out in its strategic plan an assessment of the human rights and equality issues it believes to be relevant to its functions and purpose.
- Address set out in its strategic plan the policies, plans and actions in place or proposed to be put in place to address those issues.
- Report report on developments and achievements in its annual report.

An assessment of equality and human rights issues leads to recognition of the need to better understand the experience and diversity of staff and service users, to ensure dignity in the workplace and to improve access to services. In implementing the Duty, the council will apply the following three step approach, Assess, Address and Report adopting an 'evidence' based approach.

In the assessment stage we will consider:

- What potential human rights and equality issues need to be addressed or considered.
- What structures and initiatives do we already have in place to support human rights and what improvements if any are required to be made to same to ensure their continued effectiveness.
- What human rights and equality issues need to be prioritised for action.

In the Addressing stage we will:

- Agree priority actions to address equality and human rights issues identified in the assessment stage.
- Determine the most appropriate implementation structure to drive the Duty.
- Consider staff capacity so as to ensure we are in a position to prevent and respond to issues as they present.
- Integrate the Duty in strategic planning i.e. development plans, procurement plans, team development plans etc.

In the Reporting stage we will:

- Review and monitor the collection of data, clearly defined targets arising from the assessment and addressing stages.
- Consult and engage with staff and service users.
- Detail achievements and steps taken in action plans in our annual report.
- Report on developments and achievements in a manner that is accessible to the public.

Appendix 3 - Socio Economic Profile of County Cavan: Census 2022

Population

Census 2022 shows that the population of Cavan grew by 7% to 81,704, which means the number of people in the county rose by 5,528 between April 2016 and April 2022. Cavan was the largest town, with a population of 11,741 in April 2022.

Population by Age

The average age of Cavan's population in April 2022 was 38.5 years, compared to 37.2 years in April 2016.

There were 11,868 people aged 65 and over living in the county in April 2022. Of these 3,235 were living alone. This was a 17% increase in those aged 65 and over living alone. There are 10,464 people aged 65 and over. There are 2,755 people aged 65 years and over living alone in County Cavan.

There were 17,752 children (aged under 15) living in Cavan in April 2022. This was 130 fewer than in 2016.

Employment

Almost 64,000 people living in the county in April 2022 were aged 15 and over and of these almost 35,400 people were at work. This was an increase of 16% (from the more than 30,500 people recorded as working in Census 2016). Most people in work in Cavan were in full-time employment, with nearly 26,800 people in this category, compared with almost 5,000 who were working part-time.

Just over 3,600 people were unemployed in the county in April 2022. This was considerably lower than the 2016 figure of more than 5,400 people (a decrease of 33%). The unemployment rate was 9% compared with 15% in 2016. Among towns with a population of at least 1,500 people, Belturbet had one of the highest unemployment rates in the country at 11%.

There were more than 10,100 retired people in Cavan, up 20% since Census 2016.

There was a 25% increase in the number of people who were unable to work due to permanent sickness or disability to almost 3,000 people.

The number of people looking after their home/family fell by 13% to over 4,800.

Where people worked

Manufacturing accounted for the largest number of workers in the county at almost 5,200. Wholesale and Retail Trade sector was the next largest, with over 4,400 workers followed by Human Health and Social Work Activities with more than 4,000 workers.

Working From Home

A new question was included in Census 2022 asking people whether they ever worked from home and if so, for how many days per week. There were almost 34,400 people at work in Cavan in April 2022. Of these, 23,500 never worked from home, while almost 7,900 people worked from home at least some of the time. Of those working from home, almost 1,700 people did so for five days per week, with 1,444 doing so for one day and 1,283 for two days each week.

Travelling to Work

There were 32,111 people travelling to work in the county in April 2022. The majority of these drove to work, with 21,127 people driving to work by car in 2022. There were 562 people travelling by bus, and 33 by train. Looking at active travel, 2,075 people walked to work, up from 1,834 in 2016, while 169 people cycled, an increase of 43 people since 2016. Working commuters in both Cavan and Donegal were the least likely to cycle to work with only 0.5% doing so.

Irish Speakers

There were 78,633 people aged three years and over living in Cavan 26,591 people could speak Irish. This was up from 25,210 people who could speak Irish in 2016. In Cavan, 1,740 people who could speak Irish spoke it very well (7%), while 8,910 could speak it well (34%), and just over 15,000 people did not speak it well (57%). In Ireland overall, 10% of Irish speakers could speak the language very well with 32% speaking it well and 55% not speaking it well.

Level of Education

The number of people with a third level qualification in the county increased from nearly 15,600 in 2016 to almost 20,000 in 2022. Almost 15,000 people, or 28% of all those aged 15 and over, had completed their full-time education at upper secondary level.

Housing Stock

Between April 2016 and April 2022, housing stock in the county grew by 3% from 33,585 to 34,427. The number of vacant dwellings decreased by 17% from 4,829 to 4,023 and the number of holiday homes rose by 3% from 1,046 to 1,074. Nationally, the housing stock grew by more than 5% from 2,003,645 to 2,112,121. The number of vacant dwellings fell by almost 20,000 (-11%) to 163,433 and the number of holiday homes rose by 8% from 62,148 to 66,956.

It is important to note that a dwelling classified as vacant for census purposes does not necessarily imply that it is available for re-use. Census vacancy is essentially a point in time measure which may be different to other reported measures of vacancy which may focus more on longer term vacancy. For more information on the census definition of vacancy, please see Editor's Notes below.

Housing Tenure (Owners and Renters)

In April 2022, 19,919 of homes were owner-occupied in Cavan, compared with 19,164 in April 2016.

The number of homes owned with a mortgage or loan fell by 4% from 8,507 to 8,184 since Census 2016 while the number of homes owned outright (without a loan or mortgage) increased by 10%, from 10,657 to 11,735.

Homes rented from private landlords showed a 11% increase from 4,171 to 4,614. Nationally, 66% of homes were owner occupied. More than 330,000 homes were rented from a private landlord, an increase of 7% since 2016.

There was a significant increase of 83% (up to almost 17,000 households) in the number of over 65s renting from a private landlord in the State. In Cavan, the number of homes rented in the 65 and over age group was 321 (which was a 104% increase). In the 60 to 64 age group, it was up 76% compared with 69% nationally.

Social Housing

As of 31st December 2024, 3374 households were supported with some form of social housing support (Local authority social house, HAP, RAS, Lease, grant aid).

Vacancy

Many properties classed as vacant in the census may only be vacant for a short period of time and for a wide variety of reasons including homes for sale, rent, new build or renovation, owner in a nursing home, etc. However, there were more than 1,614 dwellings classed as vacant both in the 2016 and 2022 censuses in Cavan, which could be an indication of a longer-term vacancy status.

Data from New Household Questions

Census 2022 included new household questions on the number of working smoke alarms and how we use renewable energy sources in our homes. Cavan had 1,316 homes with no smoke alarms. Homes with solar panels amounted to 1,816 which was 6% of occupied dwellings in the county. Nationally, almost 72,000 homes had no smoke alarms and 119,300 or 6% of occupied homes had solar panels fitted.

Citizenship

In April 2022, 58% of Cavan's usual residents (47,339 people) were born in the county. A further 22% (18,112) were born elsewhere in the State. In Cavan non-Irish citizens accounted for 12% of the county's population. Among the non-Irish residents, the largest group were Polish citizens (1,719 people), followed by UK citizens (1,564), Lithuanian (1,398) and Latvian (783). Nationally there were more than 631,000 non-Irish citizens, which was 12% of the population. The number of dual-Irish citizens, which is when you are a citizen of two countries at the same time, in the county increased from 1,297 in 2016 to 2,335 in 2022. The largest dual-Irish citizenships included Irish-UK (507 people), Irish-US (440) and Irish-Australia (231). There were more than 170,500 dual-Irish residents in Ireland in Census 2022.

Immigration

There were 2,341 people living in Cavan in April 2022 who had moved to the county in the year before the census. This included 1,334 people who had moved from elsewhere within Ireland, and 1,007 people from outside the State. A further 1,973 people had moved within the county in the year before the census.

Ethnic Group/Background

Almost 64,000 people living in Cavan in April 2022 had a White Irish ethnic group or background. A further 8,707 people identified as Any other White. There were 1,114 people whose ethnic group/background was Asian or Asian Irish – Indian/Pakistani/ Bangladeshi and 896 people with a Black or Black Irish – African ethnic group/background.
